ACKNOWLEDGEMENT

In developing a catalogue of special format materials, specific mention must be made of the creative teachers who are programming for print-handicapped students, the educational consultants whose expertise has been invaluable in integrating students into regular educational programs and to the staff, volunteers and summer students who produce and circulate these materials.

Special thanks to some of the people who were instrumental in creation of this catalogue: Roger Cansfield, Paule Marion, Bunny Cobb and those in Special Materials Services, Instructional Media Services and Management Information Services without whose support and cooperation this project could not have been accomplished.

INTRODUCTION

Special Materials Services of the Manitoba Department of Education supplies special format educational materials to schools for the use of students who are unable to use regular print textual and supplementary materials. Special format materials include Braille (tactile symbols), Large Print (photographically enlarged texts), and Audiotape (read aloud and recorded). All materials are lent free of charge from September to June, or any portion thereof, to Manitoba teachers of students from Grades 1 through 12 and to students in post-secondary programs.

SUPPLEMENT OR REPLACE REGULAR TEXT

Special format materials are used to supplement or to replace the regular print text. Classroom, resource and special class teachers, principals or special education coordinators are using special format materials in programs for students with severe visual handicaps, reading or learning difficulties, or physical handicaps. Special format materials - particularly audiotapes - are used to reinforce visual reading skills, to motivate "turned off" readers, or to replace the regular print for severely handicapped or learning handicapped students.

SPECIAL MATERIALS LIBRARY SERVICE

Special Materials Services maintains a library of educational braille, large print and taped materials from which copies are lent to borrowers, on request. This catalogue lists titles in the collection to February 1983.

Special Materials adds new titles to the Special Materials collection every month: Please request all books desired even though they may not appear in the catalogue as they may have been acquired since publication. You will be notified promptly which titles are available and are being sent to you.

SPECIAL MATERIALS PRODUCTION SERVICE

Occasionally, schools request textual or supplementary materials which are not available in the Special Materials Services Library. When this occurs, Special Materials Services will consult sources in Canada, the United States and Great Britain. Arrangements will be made to borrow or to purchase the material if it is available elsewhere.

When the materials are not available elsewhere, Special Materials Services will offer to produce it for you. We will ask you to provide us with two (2) copies of the book and at the same time, we will write to the publisher requesting permission to produce the text in special format. Schools can allow eight (8) weeks from the time Special Materials Services receives ink prints for audiotape and large print for production to be completed. For braille production, schools can allow sixteen (16) weeks for the initial volume and up to 15 months for completion of an entire braille text.

TO THE PUBLISHER

Every attempt is made to secure copyright release of each title before it is transcribed into braille, large print or audiotape. We would welcome any information which will enable us to rectify any reference or credit in subsequent editions.

HOW TO USE THIS CATALOGUE

The catalogue is divided into divisions by subject - e.g. Mathematics, Remedial Reading, Science, etc. Within each division, titles are arranged alphabetically by title. Each entry includes the following information on each title: author, edition, publisher, copyright date, format and reading level (where available). The library designator for "audiotape" is "SOUND RECORDING" which is how the format will appear in an entry. Where a title is available in more than one format, there will be a separate entry for each format (Sound recording, Braille and Large Print). In addition, the catalogue has two indexes which follow the main body of the catalogue: an alphabetical listing by title and an alphabetical listing by author.

TO LOCATE A SPECIFIC TITLE IN THE CATALOGUE:

1. Find the title in the title index.
2. Turn to the page number indicated in the listing.
3. Confirm that the author, publisher and copyright date correspond to those of the title you need.
4. Confirm that the format is the one you require (Audiotape, Braille or Large Print).

To locate works by a specific author, use the author index as above.

INSTRUCTIONS FOR REQUESTING

1. Write or phone Special Materials Services, giving the name of the author, the title, the edition, and the copyright date exactly as they appear in the text.

2. Please specify what date the material will be needed - e.g. - Materials requested in September may not be required until February.

3. Whenever possible, please use Special Materials Services request forms. Additional request forms are available from Special Materials Services.

4. Please allow three (3) weeks for delivery of materials in the Special Materials Services collection and eight (8) to sixteen (16) weeks from the time Special Materials receives the inkprints for production of materials not in the Special Materials Services collection.

5. Materials are lent, free of charge, for a period from September to June. All materials should be returned to Special Materials Services no later than June 30th.

6. Extension of the loan should be requested in writing. This is of the utmost importance as the returned materials will be designated for use by other students the following school year.

INQUIRIES, COMMENTS, ETC.

Special Materials Services staff invite your questions, comments and suggestions about the materials and/or services we provide. If you are interested in seeing how the materials are produced, we welcome you to visit us in our new location.
